About Paper

Paper is human innovation & a wonderful product. It is a sustainable, recyclable & plant-based product that connects us in so many ways to the important things in life.

It is hard to imagine what life would be like without paper. All of us use it, in one of its many forms, each and every day. From food packaging to recyclable newspapers and magazines, to office paper & printing paper, most people can't get through the day without it. Further, the specialty paper provides a new printing & packaging options. Paper may be made tough enough to withstand acid, or soft enough for a baby's skin. The Tissue paper has been providing unmatched hygiene, comfort and convenience to our society.

Paper is thus an indispensable part of everyday life. Despite the technological revolution leading to increased computerization of operations, paper still holds on to its existence and has become an essential commodity of our everyday life.

The Paper Industry

The Indian Paper Industry is the 15th largest paper industry in the world. Paper Industry produces majority of the paper pulp by recycling Waste paper, Pulping agricultural residues like wheat straw, paddy straw and sugarcane bagasse. In India, 46% of the Paper is produced using Waste Paper – Recycling. Around 22% of the Paper is produced using Agricultural Residues like Wheat Straw, Paddy Straw and Bagasse. Only 32 % of the Indian Paper Industry uses Wood as the raw material for manufacturing Paper.

Paper Industry provides employment to more than 0.5 million people directly and 1.5 million people indirectly. The per capita paper consumption in India at a little over 13 kg, is way behind the global average of 57 kg.

The focus of paper industry is now shifting towards more eco-friendly products and technology. **Moreover, the paper industry in India is not into Mining, just Cultivation of Trees and No use of the Reserved Forest.**

Paper Industry in South India

The Paper Industry in South India has shown a significant growth over the years. There are a large number of Paper mills which have come up in states like Andhra Pradesh, Karnataka, Tamil Nadu,

Telangana, Puducherry and Kerela because of the favorable investment opportunities and its vicinity to the source of raw material.

In these South Indian States there are around 130 Paper Mills having an installed production capacity of duplex boards of 70,000 tonnes per month, writing paper at 77,500 tonnes and Kraft at 200,000 tonnes per month.
