MESSAGE

I am delighted to know that Hyve India Private Limited, in collaboration with the World Paper Forum and Indian Agro & Recycled Paper Mills Association, is organizing Paperex South India 2024, the 7th International Exhibition & Conference on Paper and Allied Industries. The event is scheduled to take place from December 5-7, 2024, at the Chennai Trade Centre, Chennai.

The paper industry in India is witnessing remarkable growth, driven by factors such as economic development, rising income levels, rapid urbanization and an expanding earning population. These trends present immense opportunities for innovation, sustainability and expansion in the paper sector.

Paperex South India 2024 provides an invaluable platform for the exchange of ideas, showcasing of cutting-edge technologies and fostering collaborations that will shape the future of the paper and allied industries. The event's emphasis on eco-friendly goods and sustainable practices is particularly commendable and aligns with the global shift towards environmental responsibility.

I extend my warmest wishes to the participants, exhibitors and organizers for a highly successful event. I am confident that the concurrent programs, including the CEO/MD Conclave and Networking Pavilion, will further enrich the experience and contribute meaningfully to the industry's growth.

Best wishes for the grand success of Paperex South India 2024 and the release of the Souvenir Cum Show Catalogue.

MESSAGE

I am pleased to know that Hyve India in association with World Paper Forum is organizing 'Paperex South India 2024', the 7th International Exhibition and Conference on Paper & allied Industries at Chennai during December 5-7, 2024.

At the heart of the pulp and paper industry transformation is the never-before available levels of process intelligence. With smarter and faster machineries, mills can improve safety, productivity and efficiency. Mills are also entering a new era of connectivity.

I understand that Paperex is a leading trade event which provides a business platform for the industry professionals. I wish and hope that the event will go a long way in serving the needs of the Indian Paper Industry.

I congratulate the organizers and convey my best wishes to all the participants, delegates, supporting associations and organizers for the success of event.

Message

“Want to take India higher on Ease-of-Doing-Business Index. Industrialists don’t come because of incentives; need is to create development and growth-oriented environment.”

- *Narendra Modi*

As one of the old and core industrial manufacturing sector, India’s Paper industry is bearing positive impact on socio-economic development. In India, this industry plays a vital role in the overall industrial growth and also provides a necessary medium to propel our knowledge based economy forward in the new millennium. Indian Paper Industry has been growing steadily with significant achievements to its credit.

I am much pleased to learn that **Hyve India Pvt. Ltd.** in association with Indian Agro & Recycled Paper Mills Association (IARPMA) are jointly organizing the **Paperex South India-2024, 7th International Exhibition & Conference** on Pulp, Paper & Allied Industries during **5th-7th December, 2024** at **Chennai**. This exhibition will surely offer a unique opportunity to entire Paper and allied industries to showcase the latest developments on a common platform. I am sure the **Souvenir cum Show Catalogue** containing important information on the event will be useful for all national and international stakeholders. I congratulate organizers for their efforts and wish that it will surely help and encourage all the delegates and stakeholders from allied industry and wishing a grand success of the event.

Dr. Sandeep Saxena, Additional Chief Secretary, Govt. of Tamil Nadu and CMD, Tamil Nadu Newsprint and Papers Ltd. (TNPL), inaugurated the 7th Edition of Paperex South India 2024—International Exhibition and Conference on Pulp, Paper and Allied Industries on 5th December 2025 at Chennai Trade Centre, Chennai.

Mr. Ganesh Bhadti, Director (Operations), Seshasayee Paper and Boards Ltd. (SPB), was the keynote speaker at the inaugural function, and he delivered his keynote address on "Green Practices and Futuristic Approach for Sustainability." Mr. Pramod Agarwal, President, Indian Agro & Recycled Paper Mills Association. Mr. Nandikeshwaran, Vice President, South Indian Kraft Paper Mills Association; Mr. Pankaj Agarwal, Vice President, IARPMA; Mr. Gagan Sahnni, Portfolio Director, Hyve India Pvt Ltd; and Dr. B P Thapliyal, Secretary General, IARPMA, addressed the august gathering during the inaugural function.

The three-day Technical Conference on Pulp, Paper, and Allied Industries, with the theme “Paper and Packaging Industry—Realities and New Opportunities,” has been held from December 5–7, 2024, at the Chennai Trade Centre, Chennai, Tamil Nadu. The technical conference focused on the emerging technologies, future prospects of paper and paper packaging industries, emerging export market, challenges and growth drivers of the Indian paper industry, new standards and policy initiatives by the government, and the most modern technological developments taking place across the world in the pulp, paper, packaging, and allied industries.

The high-profile technical conference of Paperex South India 2024 witnessed presentations and participations of a galaxy of internationally reputed scientists, scholars, researchers, technocrats, academicians, industry professionals, technology suppliers, and mill managers. Presentations were made on various emerging technologies applicable in pulp, paper, and allied industries, and the industry experts shared various innovative ideas with the participants to ensure future growth and development of the industry.

The conference theme, "Paper and Packaging Industry: Realities and New Opportunities," has been designed to address the critical issues faced by the Indian pulp, paper, packaging, and allied industries.

The conference witnessed deliberations on many aspects of growth and development in the paper and packaging industry through presentations and discussions on diverse aspects of the industry.

Paper packaging, one of the fastest-growing segments of the industry, is experiencing a significant transformation driven by consumer behaviour, sustainability trends, and regulatory pressures. It is expanding at an impressive rate of 25% per annum.

THE CONFERENCE

A panel discussion titled "Future Prospects of Paper and Packaging Industry" was held on the first day of the conference, i.e., 5th December 2024, with the aim to review the growth and future prospects of the packaging segment within the paper industry. Prominent industry leaders and professionals as panellists made deliberations on various aspects of paper-based packaging, highlighting the opportunities and technological advancements in this field. Mr. Anil Kumar, Sr. Technical Advisor and Former CEO & Executive Director, Shreyans Industries Ltd., was the moderator of the panel session. Dr. K M Shanmuga Perumal, Vice President, South Indian Kraft Paper Mills Association; Mr. Hardik Patel, Director, Om Sree Papertek Pvt Ltd; Mr. Vinod Patel, Director, Suryaans Paper (I) Pvt Ltd; Mr. Santosh Wakhloo, Executive Director (Marketing), Tamil Nadu Newsprint and Papers Ltd.; Mr. Pankaj Agarwal, Vice President, IARPMA; Mr. Ram Alagesan, Chief General Manager (Technical), Nepa Ltd (CPSU); and Mr. Vijayakumar, Secretary General, Indian Newsprint Manufacturers Association exchanged their expert views on various aspects of paper, packaging, and marketing as panelists. To highlight growing trends in the paper and packaging industry, the first day of the conference featured a special session on sourcing of recycled fibres, changing regulations, and customer priorities in paper and packaging segments, featuring the latest developments by three distinguished speakers from reputed organizations. This special session was chaired by Dr. B. P. Thapliyal, Secretary General, IARPMA.

On the second day of the conference, the technical session on Energy and Environmental Management in the pulp and paper industry featured 4 speakers representing eminent professionals and experts who highlighted various aspects related to issues, challenges, and futuristic developments of the industry in the field of energy and environment. This session was chaired by Sh. Anil Kumar, Advisor, IARPMA, and former CEO and ED, Shreyans Industries Ltd.

The Technical Session-II focused on innovative technologies and product development in the paper and packaging industry. The papers presented during this session were highlighting the trends in the latest technologies, approaches, etc., for energy efficiency and productivity, product development, etc.

This session was chaired by Mr. R. Chandrasekharan, Vice President - Project Engineering, Enmas Andritz.

The Technical Session-III on the second day of the conference focused on Best Technologies and Operation Practices for Profitability and Sustainability. This session has been chaired by Dr. A.K. Dixit, Senior Scientist from CPPRI. The highlights of this session were the presentations of the papers from 6 eminent speakers from UNIDO, TNPL, consultants, scientists, and technical experts from ITC.

The third day of the conference specifically featured the special session on the paper and packaging industry: product quality, export marketing, and government policies. During this session, chaired by Dr. (Prof.) Taneer Alam, Additional Director and Regional Officer, Indian Institute of Packaging (IIP) Delhi, different aspects of growth and development in the paper and packaging industry have been presented and discussed by eminent speakers from government bodies, academic institutions, and industry. In parallel with the conference of Paperex South India 2024, the CDH-16 meeting was organised with a view to disseminating the activities regarding product standardisation by BIS, the Govt. of India, and the CHD-16 Committee among the users and manufacturers in the southern part of India. The presentations and deliberations during the 7th Paperex South India 2024 Conference highlighted the future of the paper and paper-based packaging industry and also presented a roadmap for the industries to follow and achieve the national targets by fulfilling the Make in India goals with a sustainable, cleaner environment in the coming decades. The Paperex South India 2024 conference put forward many innovative ideas and state-of-the-art technologies to ensure sustained growth and development of the Indian paper and paper-based packaging industry.

GROWTH POTENTIAL OF PAPER INDUSTRY

The per capita paper consumption in India is 16 kg, versus the global average of 57 kg per year, posting 10.6 per cent growth in per capita consumption of paper in 2021-2027. The future looks more promising as the domestic demand is on the rise.

India's growth is being driven by the packaging industry, projected to reach approximately USD 204.81 billion by 2025, with a robust CAGR of 26.7 per cent between 2020 and 2025. This growth is

fuelled by increasing consumer demand for resource-efficient and eco-friendly products across sectors like food and beverages (F&B) and pharmaceuticals and healthcare (PHC), which are experiencing significant expansion in both developed and developing economies, including India.

DOES PAPER PRODUCTION CAUSE HARM TO NATURE?

It is a widespread myth that paper manufacturers rely on wood as a primary raw material, significantly contributing to deforestation.

In reality, the paper industry does not engage in indiscriminate deforestation or use reserved forests. Only 5 per cent of specific tree types are used as raw materials, compared to over 55% of wood being

used for firewood. Notably, 73 per cent of deforestation in tropical and subtropical regions is attributed to agriculture and other activities, not paper manufacturing. Paper is among the most recycled materials globally, with over 60 per cent of all paper being reused.

The event will provide trade visitors with the opportunity to explore innovative solutions, discover emerging trends, and interact with key players in the global paper and packaging industries. Leading exhibitors will showcase the latest technology, machinery, and raw materials for paper and board manufacturing - all under one roof. Entry to the exhibition is free for industrial and business visitors, who can register online or on-site at the venue.

The regional extension of "World Largest Paper Show" at Chennai

"The Grand Opening of the most Awaited Exposition of Pulp and Paper Industry"

PAPEREX SOUTH India is the regional extension of the world's largest paper show, providing an unmatched platform for the pulp, paper, paperboard, packaging, printing, and publishing industries in South India. From December 5th to 7th, 2024, Chennai will host this premier event, bringing together paper manufacturers, machinery producers, and allied industries for three days of networking and innovation.

Despite technological advancements, paper remains irreplaceable as a medium for recording, storing, and sharing critical information, reaffirming its enduring significance.

Growth Potential of the Paper Industry
 Indian Paper Industry is ranked 15th globally in paper production and growing at a rapid pace with current domestic size of US\$14.75Bn is expected to reach US\$ 15.57 Bn by 2030.

The per capita paper consumption in India stands at 15 kg, versus the global average of 57 kg per year, posting 13.4% growth at compound annual growth rate from 2024-2030. The future looks more promising as domestic demand is on the rise.

Does Paper Production causes harm to nature?

It is a widespread myth that paper manufacturers rely on wood as a primary raw material, significantly contributing to deforestation.

In reality:
